

November 2020

WALT design an instrument to play a recognisable tune.

Design and Create

What will you use to make your musical instrument? Draw or write a list of things you will need.

Draw a picture of how you think your musical instrument will look when it is finished. Label it to show what each part will be made from and how it will work.

How will you make high and low sounds on your musical instrument? Draw a picture or write about it.

How will you make loud and quiet sounds on your musical instrument? Draw a picture or write about it.

Test and Evaluate

Test your musical instrument out to see how well it works.

Has it turned out how you expected?

How did you solve any problems you had while making it?

Can you explain how you can hear different sounds from your musical instrument?
Refer to vibrations, particles and you ear, as well as high, low, loud, and quiet sounds.

Use these word to help you:

low particles pluck hit long travel high air quiet
ear loud vibrate short play soft hard blow
