When something is 2D we can only see the width and height

2D square 3D cube

Can you write the correct names next to the 3D shapes?

Cube, cuboid, sphere, cylinder, square-based pyramid, cone

How many of these shapes can you find at home? **Write down an object you find for each shape.**

Predict what happens next

Mike and his friend Ali have gone rock climbing without telling their parents. However, as the sky begins to cloud over quickly, spots of rain fall. They have forgotten their packs at the bottom of the mountain.

Finish the story. Use adverbs in your writing to explain what happens next?

Use the adverbs

suddenly, quickly, anxiously, happily, carefully, slowly

What danger are they in?

Mike's rope begins to slip- what can Ali do?

How do they get to safety?

Make booklet about a volcano explosion. Think about

- 1) Where in the world might a volcano explode occur?
- 2) What causes it? Find out as much detail as possible about why it occurs.
- 3) What effect might it have on people?
- 4) What is the important vocabulary you should use when writing about the disaster?
- 5) Include paragraphs, subheadings, pictures, captions, information with numbers, in your booklet.

Watch the film clip about the Volcano eruption of Vesuvius in the year 79ACE
<https://www.bbc.co.uk/programmes/p0170brg>

Imagine you were there. Create a poem about a volcano explosion. Your poem should use **onomatopoeia**. These are words that sound like the action they make.
E.g snap, crash, bang, buzz, fizz, sizzle,

What do the pictures below tell you about living in Britain. Write a sentence about each one such as **In Britain there are...**
In Britain you can...

The people who live in Britain can be described as being **diverse**. This means they are different from each other in lots of ways. They have a wide range of different backgrounds, ethnicities, religions, beliefs and traditions.

Britain is also described as being **multicultural**. This means that it contains people from lots of different cultures. Being British is about **respecting** and **valuing** each other's differences. This is

e.g- what 3D shape is a cereal box? What 3D shape is a ball.

3d shapes have **faces**. They are the flat and round surfaces that we can see.

Some shapes will have flat faces or curved faces. Are there any shapes with both?

3D shapes have **edges**. **An edge is here the 2 faces meet**. How many edges does each shape have? **Which 3D shape above has only 1 edge?**

The corner of a 3D shape is called a **vertex**. More than one means that a 3D shape has **vertices**. How many vertices do the shapes you have found have?

Write how many faces, edges and vertices **each of the shapes** above have.

E.g

A cube has ___ faces. It has ___ edges. It has ___ vertices

A cone has ___ faces. It has ___ edges. It has ___ vertices.
