WALT: plan a diary entry using time adverbials

We are using the story Paddington at the Palace to help us write our diaries.

What features do we need to include in our diaries?

first person

time adverbials

expanded noun phrases

past tense verbs

Dear Diary

feelings

WALT: plan a diary entry using time adverbials

Tomorrow we will write our own diaries. Lets have a look at what a good one looks like.

Dear Diary,

First, I walked to see my dear, old friend Mr Gruber and went to see the beautiful, old Buckingham Palace. We rode the large, red bus through London until we arrived. Next, we strolled cheerfully through St James Park. I wanted to pick some pretty, pink flowers for the Queen. Mr Gruber told me not too because I would get in trouble. After that, we arrived at the gates of the massive, royal palace. I was so excited to see the changing of the guard! I waved my flag happily in case the Queen could see me. Then, a crowd quickly gathered to see the serious, strong soldiers. I was very upset because I couldn't see a thing! Suddenly, Mr Gruber had brilliant idea. He urgently passed me a periscope to help me see over the crowd but it didn't work. I aggressively forced my way through the crowd to see the loud marching band.

Out of nowhere, a small, annoying child told his friend that I looked like a busby. I felt frustrated because I am not a soldiers tall, furry hat. I am a bear!
