

The Mayflower Federation

Safeguarding Policy (Child Protection)

Updated Policy September 2021

THE MAYFLOWER FEDERATION
ILDERTON & PHOENIX PRIMARY SCHOOL
SAFEGUARDING (CHILD PROTECTION) POLICY

INTRODUCTION AND AIMS

The Governors, Senior Leaders and staff of the Mayflower Federation's schools are committed to providing a safe and secure environment for children, staff and visitors and also promoting a climate where children and adults will feel confident about sharing any concerns which they may have about their own safety or the well-being of others.

The aims of the policy are to:

- Ensure that Governors, staff and volunteers fulfil statutory requirements in respect of safeguarding and promoting the welfare and wellbeing of all pupils
- Identify the names of responsible persons in the school and explain the purpose of their role
- Describe what should be done if anyone in the school has a concern about the safety and welfare of a child who attends the school
- Identify the particular attention that should be paid to those children who fall into a category that might be deemed "vulnerable"
- Set out expectations in respect of training
- Ensure that those responsible for recruitment are aware of how to apply safeguarding principles in employing staff and use safer recruitment practices as a means to deter and prevent unsafe adults from abusing positions of trust
- Set out expectations of how to ensure children are safeguarded when there is potential to come into contact with non-school staff, e.g. volunteers, contractors etc.
- Outline how complaints against staff will be handled
- Set out expectations regarding record keeping
- Support a culture of safeguarding, building resilience and a collective responsibility for the safety and well-being of others
- Work constructively with partner agencies to ensure timely and appropriate support for vulnerable children and their families
- Raise awareness of child protection issues amongst staff, parents and pupils and to describe clearly the procedures that have been adopted identify and support children at risk and to respond to concerns and disclosures

The Federations Safeguarding (Child Protection) policy draws upon duties conferred by the Children Acts 1989 and 2004, S175/157 of the Education Act, the Education & Inspections Act 2006 and the guidance contained in "[Working Together to Safeguard Children 2015](#)", of DfE's statutory guidance "[Keeping children safe in education](#)"., Ofsted Guidance and procedures produced by the London Safeguarding Children Board ([LSCB](#)) and relevant Local Safeguarding Children Boards ([LSCB](#) & [SSCB](#)). The policy cross-references to other key Federation policies, including those relating to: Health and Safety, Special Educational Needs, Behaviour Management, Equalities, E-Safety (and Acceptable Use), Anti-bullying and PHSE (Citizenship + Sex & RELATIONSHIPS Education). The policy is applicable to all on and off-site activities undertaken by pupils whilst they are the responsibility of the Federation's schools.

COVID-19

From 20th March 2020, parents were asked to keep their children at home, wherever possible, and for schools to remain open only for those children of workers critical to the COVID-19 response - who absolutely need to attend and we have adopted an addendum to our safeguarding policy based on the Local Authority's [Model COVID-19 Safeguarding Policy Addendum](#)

As it is the Government's plan that all pupils, in all year groups, will return to school full-time from the beginning of the 2020 autumn term, we note the Government's [Guidance for full opening: schools](#) / [Guidance for full opening: special schools and other specialist settings](#) / [Actions for early years and childcare providers during the coronavirus \(COVID-19\) outbreak](#) / [What FE colleges and providers will need to do from the start of the 2020 autumn term](#) and in particular the section on safeguarding.

We are aware that pupils may be experiencing a variety of emotions in response to the coronavirus (COVID-19) outbreak, such as anxiety, stress or low mood. This may particularly be the case for vulnerable children, including those with a social worker and young carers. All staff members and volunteers will be vigilant about the possible impacts of the pandemic on pupils' mental wellbeing and act immediately on any safeguarding concerns, including new concerns where children are returning, and share their concerns with designated and deputy designated safeguarding leads. We will put in place appropriate support systems for pupils and parents/carers, including working with and/or referral to relevant outside agencies. We note the Government's [COVID-19: guidance on supporting children and young people's mental health and wellbeing](#). We are aware of the continued importance for our staff to work with and support children's social workers, the local authority virtual school head for looked-after and previously looked-after children and any other relevant safeguarding and welfare partners during this period.

We will continue to ensure that arrangements are in place to keep children not physically attending the school safe, especially online. Where we identify a child to be on the edge of social care support, or who would normally receive pastoral-type support in school, we will ensure that a robust communication plan is in place for that child or young person. Details of this plan will be recorded appropriately as will a record of contact. The communication plans can include; remote contact, phone contact, door-step visits. Other individualised contact methods will be considered and recorded. All our staff who interact with children, including online, will continue to look out for signs a child may be at risk. Any such concerns will be dealt with as per this policy and where appropriate, referrals will continue to be made to relevant agencies. In relation to any child receiving remote education, we note the DfE's [guidance on safeguarding and remote education during coronavirus \(COVID-19\)](#) in terms of keeping children as well as staff members safe online.

RESPONSIBILITIES AND IMMEDIATE ACTION

Safeguarding children in our schools is the responsibility of the whole school community. Safeguarding incidents can happen anywhere and staff should be alert to possible concerns being raised in school. All adults working in the Federation (including visiting staff, volunteers and students on placement) are required to report instances of actual or suspected child abuse or neglect (see Appendix 4 on types of abuse) to the Designated Safeguarding Lead with responsibility for child protection (see Appendix 3 for detailed guidance on responding to disclosures).

To ensure that staff in each school will always have immediate access to a trained Designated Safeguarding Lead who is a member of the school leadership team, we have established a Safeguarding Team, which is detailed in Appendix 1.

The Designated Safeguarding Lead (DSL) takes lead responsibility for safeguarding and child protection (including online safety) and provides advice and support to other staff on child welfare and child protection matters, takes part in strategy discussions and inter-agency meetings, and/or supports other staff to do so, and contributes to the assessment of children. DSL is the first point of contact for external agencies that are pursuing Child Protection investigations and co-ordinates the school's representation at CP conferences and Core Group meetings (including the submission of written reports for conferences). When an individual concern/incident is brought to the notice of the Designated Safeguarding Lead, they will be responsible for deciding upon whether or not this should be reported to other agencies as a safeguarding issue. Where there is any doubt as to the seriousness of this concern, or disagreement between the Designated Safeguarding

Lead and the member of staff reporting the concern, advice will be sought from the Deputy Designated Safeguarding Lead (DDSL) or the LA's Strategic Lead Officer for safeguarding in education services. If a child is in immediate danger or is at risk of harm, a referral will be made to Southwark Multi Agency Safeguarding Hub ([MASH](#)) (or its equivalent in another LA if the child resides in a different LA) and/or the police immediately.

Although all staff should be aware of the process for making referrals to children's social care and for statutory assessments that may follow a referral, along with the role they might be expected to play in such assessments, the DSL (and any deputies) are most likely to have a complete safeguarding picture and be the most appropriate person to advise on the response to safeguarding concerns. The DSL or a deputy will always be available to discuss safeguarding concerns. If in exceptional circumstances, the DSL (or deputy) is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the senior leadership team and/or take advice from local children's social care. In these circumstances, any action taken should be shared with the DSL (or deputy) as soon as is practically possible.

REFERRALS

Referrals to services regarding concerns about a child or family typically fall into three categories:

- Early Help Services;
- Child in need - Section 17 (Children Act 1989) referrals;
- Child protection - Section 47 (Children Act 1989) referrals.

[The Southwark Safeguarding Board Multi Agency Threshold Guide](#) sets out the different levels of need and detailed guidance about how concerns within these different levels should be responded to by Southwark agencies.

Safeguarding referrals should be made to Southwark Multi Agency Safeguarding Hub ([MASH](#)) via [Inter Agency Referral Form \(IARF\)](#) and copied to the LA's Schools Safeguarding Coordinator. Prior to any written IARF being sent as a referral to social care, there should be a verbal consultation with the MASH social worker or manager, by calling the duty desk on **020 7525 1921**, to ensure that making a referral is an appropriate action. The parent/carer will normally be contacted to obtain their consent before a referral is made. However, if the concern involves, for example alleged or suspected child sexual abuse, Honour Based Violence, fabricated or induced illness or the Designated Safeguarding Lead has reason to believe that informing the parent at this stage might compromise the safety of the child or a staff member, nothing should be said to the parent/carer ahead of the referral, but a rationale for the decision to progress without consent should be provided with the referral.

Where a child sustains a physical injury or is distressed as a result of reported chastisement, or alleges that When we make a referral, the local authority should make a decision, within one working day of a referral being made, about the type of response that is required and should let us, as the referrer know the outcome. We will follow up if this information is not forthcoming.

If, after a referral, the child's situation does not appear to be improving, we will consider following local escalation procedures to ensure that the concerns have been addressed and, most importantly, that the child's situation improves.

The [Early Help Referral Form](#) will be used to request additional early help for a family when the needs of a child are beyond the level of support that can be provided by universal services.

In circumstances where a child has an unexplained or suspicious injury that requires urgent medical attention, the CP referral process should not delay the administration of first aid or emergency medical assistance. **If a pupil is thought to be at immediate risk because of parental violence, intoxication, substance abuse, mental illness or threats to remove the child during the school day, for example, urgent Police intervention will be requested.**

All parents applying for places at this school will be informed of our safeguarding responsibilities and the existence of this policy. In situations where pupils sustain injury or are otherwise affected by an accident or incident whilst they are the responsibility of the school, parents will be notified of this as soon as possible.

The Mayflower Federation recognises the need to be alert to the risks posed by strangers or others (including the parents or carers of other pupils) who may wish to harm children in school or pupils travelling to and from school and will take all reasonable steps to lessen such risks.

In circumstances where a child has an unexplained or suspicious injury that requires urgent medical attention, the CP referral process should not delay the administration of first aid or emergency medical assistance. **If a pupil is thought to be at immediate risk because of parental violence, intoxication, substance abuse,**

mental illness or threats to remove the child during the School day, for example, urgent police intervention will be requested.

All parents applying for places at Federation schools will be informed of our safeguarding responsibilities and the existence of this policy and it is available on the Federation's website. In situations where pupils sustain injury or are otherwise affected by an accident or incident whilst they are the responsibility of the Federation, parents will be notified of this as soon as possible according to the first aid procedure.

The Federation recognises the need to be alert to the risks posed by strangers or others (including the parents or carers of other pupils) who may wish to harm children in school or pupils travelling to and from school and will take all reasonable steps to lessen such risks through use of the curriculum and sharing information with the police and other partner agencies.

VULNERABLE PUPILS

Particular vigilance will be exercised in respect of pupils who are subject to Child Protection Plan and any incidents or concerns involving these children will be reported immediately to the allocated Social Worker (and confirmed in writing; copied to the LA's Schools Safeguarding Coordinator). If the pupil in question is a Looked-After child, this will also be brought to the notice of the Designated Person with responsibility for children in public care.

We acknowledge that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges. We are aware that additional barriers can exist when recognising abuse and neglect in this group of children. This can include assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration; children with SEN and disabilities can be disproportionately impacted by things like bullying- without outwardly showing any signs; and communication barriers and difficulties in overcoming these barriers.

If a pupil discloses that they have witnessed domestic abuse or it is suspected that they may be living in a household which is affected by family violence, this will be referred to the Designated Safeguarding Lead as a safeguarding issue.

The School also acknowledges the additional need for support and protection of children who are vulnerable by virtue of homelessness, refugee/asylum seeker status, the effects of substance abuse within the family, those who are young carers, mid-year admissions, pupils who are excluded from school and pupils where English is an additional language, particularly for very young children, using the translation service if necessary.

The school has a strong commitment to an anti-bullying policy and will consider all coercive acts and peer on peer abuse within a Child Protection context. We recognise that some pupils will sometimes negatively affect the learning and wellbeing of other pupils and their behaviour will be dealt with under the school's behaviour policy. As a school, we will minimise the risk of allegations against other pupils by providing a developmentally appropriate PSHE syllabus which develops pupils' understanding of acceptable behaviour and keeping themselves safe, having systems in place for any pupil to raise concerns with staff, knowing that they will be listened to, believed and valued, delivering targeted work on assertiveness and keeping safe to those pupils identified as being at risk, developing robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils. Occasionally allegation may be of a peer on peer abuse nature, which may include physical abuse (violence, particularly pre-planned, forcing other children to use drugs or alcohol), emotional abuse (blackmail or extortion, threats and intimidation), sexual abuse (indecent exposure, indecent touching or serious sexual assaults, forcing other children to watch pornography or take part in sexting) and sexual exploitation (encouraging other children to engage in inappropriate sexual behaviour, having an older boyfriend/girlfriend, associating with unknown adults or other sexually exploited children, staying out overnight, photographing or videoing other children performing indecent acts). Any possible peer on peer abuse case will be shared with the designated safeguarding lead with a view to referring to appropriate agencies following the referral procedures.

We will always ascertain the views and feelings of all children. We acknowledge that children who are affected by abuse or neglect may demonstrate their needs and distress through their words, actions, behaviour, demeanour, school work or other children.

Types of child abuse and neglect

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

In addition to these types of abuse and neglect, members of staff will also be alert to following specific safeguarding issues:

Safeguarding incidents and/or behaviours can be associated with factors outside the school or college and/or can occur between children outside of these environments. All staff, but especially the DSL and DDSLs will be considering whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence. This is known as [Contextual Safeguarding](#), which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare.

In addition to these types of abuse and neglect, members of staff will also be alert to following specific safeguarding issues:

Mental Health

We are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Our staff members however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one. Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that our staff members are aware of how these children's experiences can impact on their mental health, behaviour and education. If staff have a mental health concern about a child that is also a safeguarding concern, this will be shared with the DSL with a view to referring to appropriate agencies following the referral procedures. We also note the DfE's advice and guidance on [Mental Health and Behaviour in Schools](#).

Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity in exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator and/or through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people. Some of the indicators of CCE are: children who appear with unexplained gifts or new possessions; children who associate with other young people involved in exploitation; children who suffer from changes in emotional well-being; children who misuse drugs and alcohol; children who go missing for periods of time or regularly come home late; and children who regularly miss school or education or do not take part in education. Any possible CCE case will be shared with the DSL with a view to referring to appropriate agencies following the referral procedures.

Child Sexual Exploitation (CSE)

CSE is a type of sexual abuse in which children are sexually exploited for money, power or status. Children or young people may be tricked into believing they are in a loving, consensual relationship. They might be invited to parties and given drugs and alcohol. They may also be groomed online. Some indicators of children being sexually exploited are: going missing for periods of time or regularly coming home late; regularly missing school or education or not taking part in education; appearing with unexplained gifts or new possessions; associating with other young people involved in exploitation; having older boyfriends or girlfriends; suffering from sexually transmitted infections; mood swings or changes in emotional wellbeing; drug and alcohol misuse and displaying inappropriate sexualised behaviour. A child under the age of 13 is not legally capable of consenting to sex (it is statutory rape) or any other type of sexual touching. Sexual activity with a child under 16 is also an offence. It is an offence for a person to have a sexual relationship with a 16 or 17 year old if that person holds a position of trust or authority in relation to the young person. Non consensual sex is rape whatever the age of the victim. If the victim is incapacitated through drink or drugs, or the victim or his or her family has been subject to violence or the threat of it, they cannot be considered to have given true consent and therefore offences may have been committed. Child sexual exploitation is therefore potentially a child protection issue for all children under the age of 18.

Where it comes to our notice that a child under the age of 13 is, or may be, sexually active, whether or not they are a pupil of this school, this will result in an immediate referral to Children's Services. In the case of a young person between the ages of 13 and 16, an individual risk assessment will be conducted in accordance with the [London Child Protection Procedures](#). This will determine how and when information will be shared with parents and the investigating agencies.

'Sexting'

Creating and sharing sexual photos and videos of under-18s is illegal. Sharing youth produced sexual imagery, which is commonly known as 'sexting' covers the incidents where

- A person under the age of 18 creates and shares sexual imagery of themselves with a peer under the age of 18
- A person under the age of 18 shares sexual imagery created by another person under the age of 18 with a peer under the age of 18 or an adult
- A person under the age of 18 is in possession of sexual imagery created by another person under the age of 18.

When such an incident involving youth produced sexual imagery comes to a member of staff's attention, this will be shared with the designated safeguarding lead with a view to referring to appropriate agencies following the referral procedures. Further information and advice on youth produced sexual imagery is available in the non-statutory guidance produced by the UK Council for Child Internet Safety (UKCCIS) '[Sexting in schools and colleges](#)'.

Serious violence

All staff will be made aware of indicators, which may signal that children are at risk from, or are involved with serious crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs. We are also aware that fear and a need for self-protection is a key motivation for children

to carry a weapon – it affords a child a feeling of power. Neighbourhoods with high levels of deprivation and social exclusion generally have the highest rates of gun and knife crime. Children are more likely to carry knives and other weapons than guns. All staff will be aware of the associated risks and will share any concerns about or knowledge of such children immediately with the DSL. Further advice on these is available in the Home Office documents [Preventing youth violence and gang involvement](#) and [Criminal exploitation of children and vulnerable adults: county lines](#).

Child criminal exploitation: county lines

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines criminal activity: drug networks or gangs groom and exploit children and young people to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns. Key to identifying potential involvement in county lines are missing episodes, when the victim may have been trafficked for the purpose of transporting drugs. Like other forms of abuse and exploitation, county lines exploitation can affect any child or young person (male or female) under the age of 18 years; can still be exploitation even if the activity appears consensual; can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence; can be perpetrated by individuals or groups, males or females, and young people or adults; and is typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

Peer on peer abuse

Children are capable of abusing their peers. This can take different forms, such as physical abuse (such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm; violence, particularly pre-planned, forcing other children to use drugs or alcohol, initiation/hazing type violence and rituals), emotional abuse (blackmail or extortion, threats and intimidation) sexual violence and sexual harassment; sexting, sexual abuse (indecent exposure, indecent touching or serious sexual assaults, forcing other children to watch pornography or take part in sexting) and sexual exploitation (encouraging other children to engage in inappropriate sexual behaviour, having an older boyfriend/girlfriend, associating with unknown adults or other sexually exploited children, staying out overnight, photographing or videoing other children performing indecent acts). Although it is more likely that girls will be victims and boys perpetrators, all peer on peer abuse is unacceptable and will be taken seriously. We do not tolerate these or pass them off as “banter”, “just having a laugh” or “part of growing up”.

The school has a strong commitment to an anti-bullying policy and will consider all coercive acts and peer on peer abuse within a Child Protection context. We recognise that some pupils will sometimes negatively affect the learning and wellbeing of other pupils and their behaviour will be dealt with under the school’s behaviour policy. As a school, we will minimise the risk of allegations against other pupils by providing a developmentally appropriate PSHE syllabus which develops pupils’ understanding of acceptable behaviour and keeping themselves safe, having systems in place for any pupil to raise concerns with staff, knowing that they will be listened to, believed and valued, delivering targeted work on assertiveness and keeping safe to those pupils identified as being at risk, developing robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils. Any possible peer on peer abuse case will be shared with the DSL with a view to referring to appropriate agencies following the referral procedures.

Sexual violence and sexual harassment between children

Sexual violence and sexual harassment can occur between two children of any age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children. It can occur online and offline (both physically and verbally). It is more likely that girls will be the victims of sexual violence and sexual harassment and more likely it will be perpetrated by boys. Children who are victims of sexual violence and sexual harassment will find the experience stressful and distressing. This will affect their educational attainment. Staff will share any concerns about or knowledge of such incidents immediately with the DSL with a view to ensuring that support systems are in place for victims (and alleged perpetrators). We take these incidents seriously and ensure that victims are protected, offered appropriate support and every effort is made to ensure their education is not disrupted. Where necessary, we will work

with relevant external agencies to address the issue, which may include a referral to MASH and reporting to the Police. Further information is available in 'Part 5: Child on child sexual violence and sexual harassment' of DfE guidance "[Keeping children safe in education](#)".

Domestic abuse

Domestic violence and abuse is any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to psychological, physical, sexual, financial and emotional. All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. If members of staff have a concern about or knowledge of any domestic abuse incidents, they will share it immediately with the DSL with a view to referring to appropriate agencies. Information is available about [Domestic abuse and how to get help in Southwark](#). Southwark Council's support and service provider Solace (020 7593 1290, southwark@solacewomensaid.org) offer free and confidential support for women and men aged 16 or over who are survivors of domestic abuse.

Operation Encompass

At The Mayflower Federation we are working in partnership with the Metropolitan Police and Children's Services to identify and provide appropriate support to pupils who have experienced domestic violence in their household; this scheme is called Operation Encompass.

The purpose of Operation Encompass is to safeguard and support children and young people who have been involved in or witness to a domestic abuse incident. Domestic abuse impacts on children in a number of ways. Children are at increased risk of physical injury during an incident, either by accident or because they attempt to intervene. Even when not directly injured, children are greatly distressed by witnessing the physical and emotional suffering of a parent.

Encompass has been created to highlight this situation. It is the implementation of key partnership working between the police and schools. The aim of sharing information with local schools is to allow 'Key Adults' the opportunity of engaging with the child and to provide access to support that allows them to remain in a safe but secure familiar environment.

In order to achieve this, the Multi-Agency Safeguarding Hub ([MASH](#)) will share police information of all domestic incidents where one of our pupils has been present, with the Designated Safeguarding Lead(s) (DSL). On receipt of any information, the DSL will decide on the appropriate support the child requires, this should be covert dependent on the needs and wishes of the child. All information sharing and resulting actions will be undertaken in accordance with the Metropolitan Police and MASH Encompass Protocol Data Sharing Agreement. We will record this information and store this information in accordance with the record keeping procedures outlined in this policy.

The purpose and procedures in Operation Encompass have been shared with all parents and governors, is detailed as part of the school's Safeguarding Policy and published on our school website.

Violence Against Women and Girls (VAWG)

VAWG is defined as any act of gender-based violence that results in, or is likely to result in physical, sexual or psychological harm or suffering to women including threats of such acts, coercion or arbitrary deprivation of liberty, whether occurring in public or private life. VAWG is the umbrella term which brings together multiple forms of serious violence such as crimes committed in the name of "honour"; domestic abuse; female genital mutilation (FGM); forced marriage; sexual violence, abuse, exploitation and rape; stalking; harassment; trafficking for sexual exploitation; prostitution. If members of staff have a concern about or knowledge of any VAWG incidents, they will share it immediately with the DSL with a view to referring to appropriate agencies. We also note [Southwark's VAWG Strategy](#).

So-called 'honour-based' violence (HBV)

HBV includes incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators. All forms of HBV are abuse (regardless of the motivation) and will be handled and escalated as such. If members of staff have a concern about or

knowledge of a child that might be at risk of HBV or who has suffered from HBV, they will share it immediately with the DSL with a view to referring to appropriate agencies.

Female Genital Mutilation (FGM)

FGM is a procedure where the female genital organs are injured or changed and there is no medical reason for this. It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother; and/or death.

FGM is a deeply embedded social norm, practised by families for a variety of complex reasons. It is often thought to be essential for a girl to become a proper woman, and to be marriageable. The practice is not required by any religion.

FGM is an unacceptable practice for which there is no justification. It is child abuse and a form of violence against women and girls.

FGM is prevalent in 30 countries. These are concentrated in countries around the Atlantic coast to the Horn of Africa, in areas of the Middle East like Iraq and Yemen, it has also been documented in communities in Colombia, Iran, Israel, Oman, The United Arab Emirates, The Occupied Palestinian Territories, India, Indonesia, Malaysia, Pakistan and Saudi Arabia. It has also been identified in parts of Europe, North America and Australia.

FGM is illegal in the UK. It is estimated that approximately 60,000 girls aged 0-14 were born in England and Wales to mothers who had undergone FGM and approximately 103,000 women aged 15-49 and approximately 24,000 women aged 50 and over who have migrated to England and Wales are living with the consequences of FGM. In addition, approximately 10,000 girls aged under 15 who have migrated to England and Wales are likely to have undergone FGM.

We note a new duty that was introduced on 31 October 2015 that requires teachers, which includes qualified teachers or persons who are employed or engaged to carry out teaching work in schools and other institutions to report 'known' cases of FGM in girls aged under 18 to the police. The duty applies to any teacher who is employed or engaged to carry out 'teaching work', whether or not they have qualified teacher status, in maintained schools, academies, free schools, independent schools, non-maintained special schools, sixth form colleges, 16-19 academies, relevant youth accommodation or children's homes in England. The duty does not apply in relation to suspected cases – it is limited to 'known' cases' (i.e. those which are visually identified or disclosed to a professional by the victim). The duty does not apply in cases where the woman is over 18 at the time of the disclosure/discovery of FGM (even if she was under 18 when the FGM was carried out). Further information on this duty can be found in the document "[Mandatory Reporting of Female Genital Mutilation](#) – Teachers in our school will personally report to the police cases where they discover that an act of FGM appears to have been carried out. Unless the teacher has good reason not to, they will still discuss any such case with the designated safeguarding lead (or deputy) with a view to involving children's social care as appropriate.

Forced marriage

Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some perpetrators use perceived cultural practices as a way to coerce a person into marriage. We note The Forced Marriage Unit's [statutory guidance](#) and especially Chapter 7 on page 32 of the [Multi-agency guidelines](#), which is specifically aimed at teachers, lecturers and other members of staff within schools, colleges and universities. Any possible forced marriage case will be shared with the DSL with a view to referring to appropriate agencies following the referral procedures. [procedural information](#)".

Preventing Radicalisation

The Counter-Terrorism and Security Act 2015 places a duty on specified authorities, including local authorities and childcare, education and other children's services providers, in the exercise of their functions, to have due regard to the need to prevent people from being drawn into terrorism ("the Prevent

duty”). Young people can be exposed to extremist influences or prejudiced views, in particular those via the internet and other social media. Schools can help to protect children from extremist and violent views in the same ways that they help to safeguard children from drugs, gang violence or alcohol.

Examples of the ways in which people can be vulnerable to radicalisation and the indicators that might suggest that an individual might be vulnerable:

- Example indicators that an individual is engaged with an extremist group, cause or ideology include: spending increasing time in the company of other suspected extremists; changing their style of dress or personal appearance to accord with the group; their day-to-day behaviour becoming increasingly centred around an extremist ideology, group or cause; loss of interest in other friends and activities not associated with the extremist ideology, group or cause; possession of material or symbols associated with an extremist cause (e.g. the swastika for far right groups); attempts to recruit others to the group/cause/ideology; or communications with others that suggest identification with a group/cause/ideology.
- Example indicators that an individual has an intention to use violence or other illegal means include: clearly identifying another group as threatening what they stand for and blaming that group for all social or political ills; using insulting or derogatory names or labels for another group; speaking about the imminence of harm from the other group and the importance of action now; expressing attitudes that justify offending on behalf of the group, cause or ideology; condoning or supporting violence or harm towards others; or plotting or conspiring with others.
- Example indicators that an individual is capable of contributing directly or indirectly to an act of terrorism include: having a history of violence; being criminally versatile and using criminal networks to support extremist goals; having occupational skills that can enable acts of terrorism (such as civil engineering, pharmacology or construction); or having technical expertise that can be deployed (e.g. IT skills, knowledge of chemicals, military training or survival skills).

The examples above are not exhaustive and vulnerability may manifest itself in other ways. There is no single route to terrorism nor is there a simple profile of those who become involved. For this reason, any attempt to derive a 'profile' can be misleading. It must not be assumed that these characteristics and experiences will necessarily lead to individuals becoming terrorists, or that these indicators are the only source of information required to make an appropriate assessment about vulnerability.

Channel is a programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism that uses existing collaboration between local authorities, the police, statutory partners (such as the education sector, social services, children's and youth services and offender management services) and the local community.

We will refer children at risk of harm as a result of involvement or potential involvement in extremist activity to Southwark Multi Agency Safeguarding Hub ([MASH](#)). The MASH will share the referral details of new referrals with the Prevent lead police officer and LA Prevent coordinator at the point the referral is received. The referral will then be processed through the MASH multi agency information sharing system and parallel to this the Prevent police officer will be carrying out initial screening checks. The Prevent police officer will make a referral to the Channel Practitioner if there are sufficient concerns.

Private Fostering

Private fostering is when a child under the age of 16 (under 18 if disabled) is cared for by someone who is not their parent or a 'close relative'. This is a private arrangement made between a parent and a carer, for 28 days or more. Close relatives are defined as step-parents, grandparents, brothers, sisters, uncles or aunts (whether of full blood, half blood or by marriage). Great grandparents, great aunts, great uncles and cousins are not regarded as close relatives.

The law requires that Southwark Council should be notified if anyone is looking after someone else's child for 28 days or more. The purpose of the council's involvement is to support the child and private foster family (and wherever possible the biological parent/s) with any issues arising. These may be practical issues such as benefits, housing, immigration or emotional issues such as keeping contact with biological family, maintaining cultural identity.

If we become aware of a child in a private fostering arrangement within Southwark, we will notify the council's Multi Agency Safeguarding Hub ([MASH](#)) by emailing MASH@southwark.gov.uk or calling **020 7525 1921**. Advice about whether there is a need to notify the council, can be obtained by calling **07539 346808** or sending an email to privatefosteringadvice@southwark.gov.uk.

TRAINING

All staff members will receive appropriate safeguarding and child protection training which is regularly updated. In addition, all staff members will receive safeguarding and child protection updates (for example, via email, e-bulletins and staff meetings), as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. All newly recruited staff (teaching and non-teaching) and Governors will be apprised of this policy and will be required to attend relevant LA or Safeguarding Board training. In addition, all new staff and temporary staff will be required to attend an induction session with the Designated Safeguarding Lead or their deputy on their first day in the school.

The Designated Safeguarding Lead (and their Deputies) will attend the LA's dedicated induction course and then refresher training at least every two years. The designated safeguarding lead will also undertake Prevent awareness training. In addition to this formal training, their knowledge and skills will be refreshed (for example, via e-bulletins, meeting other designated safeguarding leads or simply taking time to read and digest safeguarding developments) at regular intervals, as required, but at least annually, to allow them to understand and keep up with any developments relevant to their role. Designated staff will be encouraged to attend appropriate network meetings and to participate in the [multi-agency training programme](#) organised by the Southwark Safeguarding Children Board (SSCB).

RECRUITMENT

The Mayflower Federation is committed to the principles of safer recruitment and, as part of that, adopts recruitment procedures that help deter, reject and/or identify people who might abuse children. Safe recruitment processes are followed and all staff recruited to the school will be subject to appropriate identity, qualification and health checks. References will be verified and appropriate criminal record checks [Disclosure and Barring Service (DBS) checks], barred list checks and prohibition checks will be undertaken. The level of DBS check required, and whether a prohibition check is required, will depend on the role and duties of an applicant to work in the school, as outlined in Part three of the DfE guidance "[Keeping children safe in education](#)". We will also have regard to DfE's statutory guidance for schools about the employment of staff disqualified from childcare "[Disqualification under the Childcare Act 2006](#)", which also contains information about 'disqualification by association'.

Relevant members of staff and governors who are involved in recruitment will undertake safer recruitment training. The school will ensure that at least one person on any appointment panel has undertaken safer recruitment training in line with staffing regulations.

This School will only use employment agencies which can demonstrate that they positively vet their supply staff and will report the misconduct of temporary or agency staff to the agency concerned and to the LA. Staff joining the School on a permanent or temporary basis will be given a copy of this policy. Additionally, the Staff Handbook confirms CP procedures within the School.

VOLUNTEERS

Any parent or other person/organisation engaged by the Federation's schools to work in a voluntary capacity with pupils/children will be subject to all reasonable vetting requirements and Criminal Records Checks. There is no legal requirement to obtain DBS certificate for volunteers who are not in regulated activity and who are supervised regularly on an ongoing/day to day basis by a person who is in regulated activity. But an enhanced DBS check without a barred list check may be requested following a risk assessment. Volunteers will be subject to the same code of conduct as paid employees of the Federation. Volunteers may be required to provide references and will be asked to sign a declaration that they have not been convicted of any criminal or disciplinary offence, which might preclude their employment as a worker with children or vulnerable adults. Volunteers will at no time be given responsibility for the personal care of pupils

Voluntary sector groups that operate within the Federation, provide off-site services for our pupils or use Federation facilities will be expected to adhere to this policy or operate a policy that is compliant with the procedures adopted by the relevant local Safeguarding Board. Premises lettings and loans are subject to acceptance of this requirement.

STAFF CODE OF CONDUCT

All staff (paid and voluntary) are expected to adhere to a code of conduct in respect to their contact with pupils and their families.

1. All staff will value and respect all pupils as individuals and will at all times model appropriate conduct, that will always exclude bullying, shouting, racism, sectarianism, sexism and any other form of discrimination.
2. All staff within the Federation will adhere to a culture which both respects children and gives them a voice. Children will be treated with respect and dignity and no punishment, detention, restraint, sanctions or rewards are allowed outside those detailed in the school's Behaviour Management Policy or Positive Handling Policy.
3. Whilst it would be unrealistic and undesirable to preclude all physical contact between adults and children, staff are expected to exercise caution and avoid placing themselves in a position where their actions might be open to criticism or misinterpretation. Where incidents occur which might otherwise be misconstrued, or in exceptional circumstances where it becomes necessary to positively handle a pupil for their own protection or the safety of others, this will be appropriately recorded and reported to the SENCO/Deputy Headteacher for Inclusion and parents. Any positive handling used will comply with DfE and LA guidance.
4. Except in cases of emergency, first aid will only be administered by qualified First Aiders. If it is necessary for the child to remove clothing for first aid treatment, there will, wherever possible, be another adult present. If a child needs help with toileting, nappy changing or washing after soiling themselves, another adult should be present or within earshot. Where a child requires regularly assistance with personal care and Intimate Care Plan will be put in place with the named adults and parents. All first aid treatment and non-routine changing or personal care will be recorded and shared with parents/carers at the earliest opportunity.
5. Children requiring regular medication or therapies for long-term medical conditions will be made the subject of a Care Plan that has been agreed with the parents and health authority.
6. For their own safety and protection, staff should exercise caution in situations where they are alone with pupils. Other than in formal teaching situations; musical instrument tuition, for example, the door to the room in which the 1:1 coaching, counselling or meeting is taking place should be left open or allow full external visibility. All rooms that are used for the teaching or counselling of pupils will have clear and unobstructed glass panels in the doors.
7. School staff should also be alert to the possible risks that might arise from social contact with present and past pupils and parents/carers outside of the school. Home visits to pupils or private tuition of pupils should only take place with the knowledge and approval of the Headteacher. Any planned visits/telephone calls by pupils to the homes of staff members should only occur in exceptional circumstances and with the prior knowledge and approval of the Headteacher. Any unplanned contact of this nature or suspected infatuations or "crushes" will be reported to the Headteacher. Staff supervising off-site activities or school journeys will be provided with a school mobile telephone as a point of contact for parents and carers.
8. It is not good practice to take pupils/children alone on car journeys and children should only be transported with the authorisation of a senior manager, accompanied by two adults and subject to business use insurance cover being in place.
9. Staff will only use the school's digital technology and systems for professional purposes or for uses deemed 'reasonable' by the Headteacher and Governing Body. Staff will only use the approved school email, school Learning Platform or other school approved communication systems with pupils or parents/carers, and only communicate with them on appropriate school business and will not disclose their personal telephone numbers and email addresses to pupils or parents/carers.
10. Staff will not use personal cameras (digital or otherwise) or camera phones for taking and transferring images of pupils or staff without permission and will not store images at home. All staff and volunteers (as appropriate) are expected to sign "Acceptable Use" agreements relating to the use of the Federation's IT equipment and systems.
11. Care must be exercised in the use of social networking sites and staff should not accept present or past pupils (under the age of 18) or parents as "friends". Any inadvertent contacts with pupils or parents should be reported to the Head teacher and Designated Safeguarding Lead. Staff should not discuss sensitive information relating to pupils/children or their families or disclose any confidential information or opinion on pupils or colleagues through social networking or other electronic media.
12. Where pupils/children make disclosures of possible abuse, these should be recorded and reported in accordance with the procedures described in this policy and staff should not allow their own personal views or preconceptions about individuals, their families, social backgrounds, race or culture, to compromise the safety of the pupil/child.

13. Staff should be aware of the school's whistle-blowing procedures and share immediately any disclosure or concern that relates to a member of staff or volunteer with the Headteacher or one of the Designated Safeguarding Leads if the Headteacher is not available and nothing should be said to the colleague involved; this also includes allegations or complaints made by pupils/children or carers. It should be shared with the Chair of Governors if it relates to the Executive Headteacher or Headteacher.

CONTRACTORS

Building contractors who are engaged by or on behalf of the Federation to undertake works on site will be made aware of this policy and the reasons for this. Contractors who work regularly in the school during term time will be asked to provide their consent for DBS checks to be undertaken. These checks will be undertaken when individual risk assessments by the Senior Leadership Team deem this to be appropriate. During major works, when large numbers of workers and sub-contractors may be on site during term time, Health and Safety risk assessments will include the potential for contractors or their employees to have direct access to pupils in non-teaching sessions. All contractors and sub-contractors will be issued with copies of the school's code of conduct for staff.

Individuals and organisations that are contracted by the Federation to work with, or provide services to pupils will be expected to adhere to this policy and their compliance will be monitored. Any such contractors will be subject to the appropriate level of DBS check, if any such check is required (for example because the contractor is carrying out teaching or providing some type of care for or supervision of children regularly). Contractors for whom an appropriate DBS check has not been undertaken will be supervised if they will have contact with children. We will always check the identity of contractors and their staff on arrival at the school.

COMPLAINTS/ALLEGATIONS MADE AGAINST STAFF OR VOLUNTEERS

The Federation takes seriously all complaints made against members of staff or volunteers. Procedures are in place for pupils, parents and staff to share any concern that they may have about the actions of any member staff or volunteer. All such complaints will be brought immediately to the attention of the Headteacher or one of the Designated Safeguarding Leads if the Headteacher is not available and nothing should be said to the colleague involved. In cases where the Headteacher is the subject of the allegation or concern, they will be reported to the Chair of Governors (contact details are contained in Appendix 1), in order that they may activate the appropriate procedures. These procedures are used in respect of all cases in which it is alleged that a teacher or member of staff (including volunteers) in a school or college that provides education for children under 18 years of age has:

- Behaved in a way that has harmed a child, or may have harmed a child;
- Possibly committed a criminal offence against or related to a child; or behaved towards a child or children in a way that indicates he or she would pose a risk of harm if they work regularly or closely with children.

The Local Authority Designated Officer (LADO) should be informed of all allegations that come to a school's attention and appear to meet the criteria. Contact can also be made with LA's Schools Safeguarding Coordinator/Manager who will liaise with the LADO. Many cases may well either not meet the criteria set out above, or may do so without warranting consideration of either a police investigation or enquiries by local authority children's social care services. In these cases, local arrangements will be followed to resolve cases without delay.

Some rare allegations will be so serious they will require immediate intervention by children's social care services and/or police. In such cases, referral to the LADO will lead to a Strategy Meeting or Discussion being held in accordance with the DfE guidance and London SCB procedures. This process will agree upon the appropriate course of action and the time-scale for investigations.

The Federation has a legal duty to refer to the DBS anyone who has harmed, or poses a risk of harm, to a child and who has been removed from working (paid or unpaid) in regulated activity, or would have been removed had they not left. The DBS will consider whether to bar the person. Referrals will be made as soon as possible after the resignation or removal of the individual.

The full procedures about dealing with allegations of abuse made against teachers and other staff can be found in Part 4 of the DfE guidance "[Keeping children safe in education](#)".

RECORDS

Brief and accurate written notes will be kept of all incidents and child protection or child in need concerns relating to individual pupils. This information may be shared directly with other agencies as appropriate. All

contact with parents and external agencies will be logged and these will be kept as CP records. The school will take into account the views and wishes of the child who is the subject of the concern but staff will be alert to the dangers of colluding with dangerous “secrets”.

Child protection records are not open to pupils or parents. All CP records are kept securely by the Designated Safeguarding Lead and separately from educational records. They may only be accessed by the Designated Safeguarding Lead, their Deputy and the senior managers of their school.

Child Protection records will be sent to receiving schools separately from the main pupil file and under a confidential cover when pupils leave the school, ensuring secure transit and a confirmation of receipt will be obtained.

The content of Child Protection Conference or Review reports prepared by the Federation will follow the format recommended by Children’s Services and will, wherever possible, be shared with the parents/carer in advance of the meeting.

In addition to the child protection file, the DSL will also consider if it would be appropriate to share any information with the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue supporting victims of abuse and have that support in place for when the child arrives.

When we receive child protection records from other schools, we will ensure key staff such as the DSL and SENCO are aware as required.

If a pupil is withdrawn from the Federation having not reached the normal date of transfer; due to a family move or any other reason, all efforts will be made to identify any new address and the school to which they are being admitted and to ensure that their educational records are sent without delay to the child’s new school. If the parent/carer fails to provide this information, an urgent referral will be made to the relevant local authority service in order that they might make further enquiries. If this Federation receives educational records concerning a child who is not registered with us, the records will be returned promptly to the sending school with a note, advising them to refer to their LA’s Children’s Services Department.

A child’s name will only be removed from the School’s Admissions Register in accordance with the Pupil Registration Regulations or with the authorisation of the Local Team Manager in the Early Help Service.

All additions to, or deletions from, the School Roll will trigger the completion of a Common Transfer File (CTF) which will be downloaded to the appropriate database via the S2S system. Where an onward destination cannot be determined and the pupil is of compulsory school age, the CTF will be downloaded to the Lost Pupils’ Database.

We will inform the Local Authority when we are about to add or delete a pupil’s name from the school admission register for any reason in line with Southwark’s [Children Missing Education \(CME\) Protocol](#).

When a pupil ceases to be registered at this school and becomes a registered pupil at another school in England or Wales, we will send a Common Transfer File (CTF) to the new school via DfE’s secure internet system called school2school.

We will upload CTFs of pupils who have left but their destination or next school is unknown or the child has moved abroad or transferred to a non-maintained school to a searchable area of the school2school website commonly referred to as the ‘Lost Pupil Database’. If a pupil arrives in our school and the previous school is unknown, we will search the database for any record of the child. The school will require documentary proof as to the identity of pupils presented for admission. If there is any doubt as to the identity of a pupil, advice will be sought from the local authority and other statutory agencies, as appropriate. We will maintain accurate and up to date records of those with Parental Responsibility and emergency contacts. We will hold more than one emergency contact number for each pupil or student to make contact with a responsible adult when a child missing education is also identified as a welfare and/or safeguarding concern. Pupils will only be released to the care of those with Parental Responsibility or someone acting with their written consent.

The Federation will require documentary proof as to the identity of pupils presented for admission. If there is any doubt as to the identity of a pupil, advice will be sought from the local authority and other statutory agencies, as appropriate. We will maintain accurate and up to date records of those with Parental Responsibility and emergency contacts. Pupils will only be released to the care of those with Parental Responsibility or someone acting with their written consent.

We will take actions according to Southwark’s [Protocol for Children who are Uncollected from School](#) when pupils who ordinarily do not make their own way home are not collected by their parents/carers at the end of

the school day or from after school clubs and activities and when any children with Special Educational Needs who are transported from school can not be dropped-off at their home or meeting point due to the absence of the parent or carer.

SAFETY IN THE SCHOOL

No internal doors to classrooms will be locked whilst pupils are present in these areas.

Entry to school premises will be controlled by doors that are secured physically or by constant staff supervision or video surveillance. Authorised visitors to the school will be logged in and out of the premises and will be asked to wear their identity badges or be issued with school visitor badges. Unidentified visitors will be challenged by staff or reported to the Headteacher or school office. Carelessness in closing any controlled entrance will be challenged.

Staff and visitors are expected to wear their identity or visitor badges at all times whilst they are on site.

The presence of intruders and suspicious strangers seen loitering near the school or approaching pupils will be reported to the Police and the LA with a view to alerting other local schools through appropriate systems.

Parents, carers or relatives may only take still or video photographic images of pupils in school or on school-organised activities with the prior consent of the school and then only in designated areas. Images taken must be for private use only. Recording and/or photographing other than for private use would require the consent of the other parents whose children may be captured on film. Without this consent the Data Protection legislation would be breached. If parents do not wish their children to be photographed or filmed and express this view in writing, their rights will be respected.

THE CURRICULUM

The Federation acknowledges the important role of the curriculum in the prevention of abuse and in the preparation of our pupils for the responsibilities of citizenship and adult life. It is expected that all curriculum co-ordinators will consider the opportunities that exist in their area of responsibility for promoting effective safeguarding (Welfare and Safety of pupils/children) outcomes. As appropriate, the curriculum will be used to build resilience, help pupils to keep themselves safe and to know how to ask for help if their safety is threatened. As part of developing a healthy, safer lifestyle, pupils will be taught, for example;

- to recognise and manage risks in different situations and then decide how to behave responsibly;
- to judge what kinds of physical contact are acceptable and unacceptable;
- to recognise when pressure from others (including people they know) threatens their personal safety and well-being; including knowing when and where to get help;
- to use assertiveness techniques to resist unhelpful pressure;
- emotional literacy;
- citizenship and how to advise friends about whom they might be concerned;
- to stay safe on-line and on the telephone.

All computer equipment and internet access within the School will be subject to appropriate “parental controls”, “Acceptable Use” and internet safety rules.

The Federation will work with external partners to promote “Healthy School” status through the curriculum with the aim of;

- Developing a school ethos and environment which encourages a healthy lifestyle for pupils;
- Using the full capacity and flexibility of the curriculum to help pupils to achieve safe and healthy lifestyles;
- Ensuring that food and drink available across the school day, reinforces the healthy lifestyle message;
- Providing high quality physical education and sport to promote physical activity;
- Promoting an understanding of the full range of issues and behaviours which impact upon lifelong health and well-being.

HEALTHY SCHOOLS

The Mayflower Federation will work with partners to promote a whole healthy school approach and achieving the “Healthy School London” status – including a focus on the curriculum with the aim of:

- Developing a school ethos, culture, spiritual, moral, social and cultural (SMSC) development provision and environment which encourages a healthy lifestyle for all pupils, including the vulnerable;
- Using the full capacity and flexibility of the curriculum to help pupils to be safe and healthy;
- Ensuring that food and drink available across the school day reinforce the healthy lifestyle message;
- Providing high quality PSHE including sex and relationship education (SRE) as part of Personal Development
- Providing high quality Physical Education (PE) and sport to promote physical activity;
- Promoting an understanding of the full range of issues and behaviours which impact upon lifelong health and wellbeing, including emotional wellbeing and mental health;
- Working in partnerships with parents/carers, local communities, external agencies and volunteers to support health and wellbeing of all pupils including the vulnerable.

WORKING IN PARTNERSHIP WITH PARENTS

It is our policy to work in partnership with parents or carers to secure the best outcomes for children. We will therefore communicate as clearly as possible the commitment of the Federation to safeguard children and to promote their welfare and well-being;

- We will try to use clear statements in our brochures and websites and other correspondence.
- We will involve parents and pupils in the development of Codes of Conduct, Equalities, Behaviour Management and Safeguarding policies.
- We will liaise with agencies in the statutory, voluntary and community sectors and locality teams that are active in supporting families.
- We will be alert to the needs of parents/carers who do not have English as their first language and will utilise the translation services as necessary.
- We will keep parents informed of our responsibilities upon induction and by placing this policy on the Federation's website.
- We will share with parents the contents of any reports that are submitted to Child Protection Conferences and Review Conferences.
- We will thoroughly investigate parental complaints and consider the implications of any findings for the development of our policies and procedures.
- We will keep parents informed as and where appropriate.
- We will distribute the LA's leaflet for parents, "***Protecting Children in Education Settings***".
- We will make available a copy of this policy to any parent who requests it. The policy will also be available through the school's web site.

THE ROLE OF THE GOVERNING BODY

The Governing Body will ensure that they comply with their duties under legislation and that the policies, procedures and training in the school are effective and comply with the law at all times.

The Governing Body will ensure that the school contributes to inter-agency working in line with statutory guidance "[Working Together to Safeguard Children](#)" and that the school's safeguarding arrangements take into account the procedures and practice of the local authority as part of the inter-agency safeguarding procedures set up by the SSCB.

The Governing Body has formally adopted this policy and will review its contents with the Designated Safeguarding Lead annually or sooner if any legislative or regulatory changes are notified to it by the Designated Governor or the Safeguarding Lead.

The Governing Body has nominated **Mr Michael Osiyale** (Co-opted governor, as the Lead Governor for Safeguarding) to liaise with the local authority and/or partner agencies on issues of child protection and in the event of allegations of abuse made against the Headteacher, and this person will attend any strategy meetings called in respect of such an allegation against the Headteacher.

As good practice, the Headteacher and Designated Safeguarding Lead will provide termly/annual reports to the Governing Body outlining details of any safeguarding issues that have arisen during the term/year and the outcome of any cases identified. These reports will respect all issues of confidentiality and will not therefore identify any person(s) by name.

Also, as a good practice, the nominated governor will meet on a regular basis with the Designated Safeguarding Lead to monitor both the volume and progress of cases where a concern has been raised to ensure that the school is meeting its duties in respect of safeguarding. This is in addition to and does not replace the responsibility that rests with the Headteacher and Inclusion Manager to monitor the work of the Designated Safeguarding Lead.

Headteacher - Ilderton:	Date:
Headteacher - Phoenix:	Date:
Designated Safeguarding Lead:	Date:

*This policy will be reviewed again in September 2021

MONITORING, COMPLAINTS AND EVALUATION

All complaints arising from the operation of this policy will be considered under the Federation's complaints procedure, with reference to the relevant LA's Strategic Lead Officer for education services, as necessary.

The Governing Body will receive a termly report from the Head teacher on safeguarding issues and trends within the School. Evaluation of the effectiveness of this policy will be informed by;

- An annual item presented by the Head teacher, who will report upon levels of child protection referrals made by schools during the past year, training undertaken by school staff and Governors and any changes in legislation or national/local guidance.
- Reported findings of the local authority's Safeguarding and HR audits
- Any complaints or representations made by parents or the School Council
- Information regarding reported bullying and racist incidents
- Pupil well-being surveys
- The results of any internal self-evaluation and external reviews
- Any feedback from Children's Social Care, the Local Authority Designated Officer or other partner agencies

APPENDIX 1

The Designated Safeguarding Team

Ms Aisha Reefer	Child Protection and Family Services Officer - Ilderton
Mrs Ann Duffy	Child Protection and Family Services Officer - Phoenix

Mr Simon Assig	Headteacher - Phoenix
Ms Carol Askins	Headteacher - Ilderton
Ms Lousie Joines	Deputy Head of School - Phoenix
Ms Jennie Claff	Deputy Head of School – Phoenix
Ms Helen Hayes	Deputy Head of School - Phoenix
Ms Agatina Marchese	Deputy Head of School - Ilderton
Ms Madeleine O' Callaghan	Deputy Head of School – Ilderton
Mr Derrick Ogunsela	Deputy Head of School – Ilderton
Ms Sarah Drew	Chair of Governors

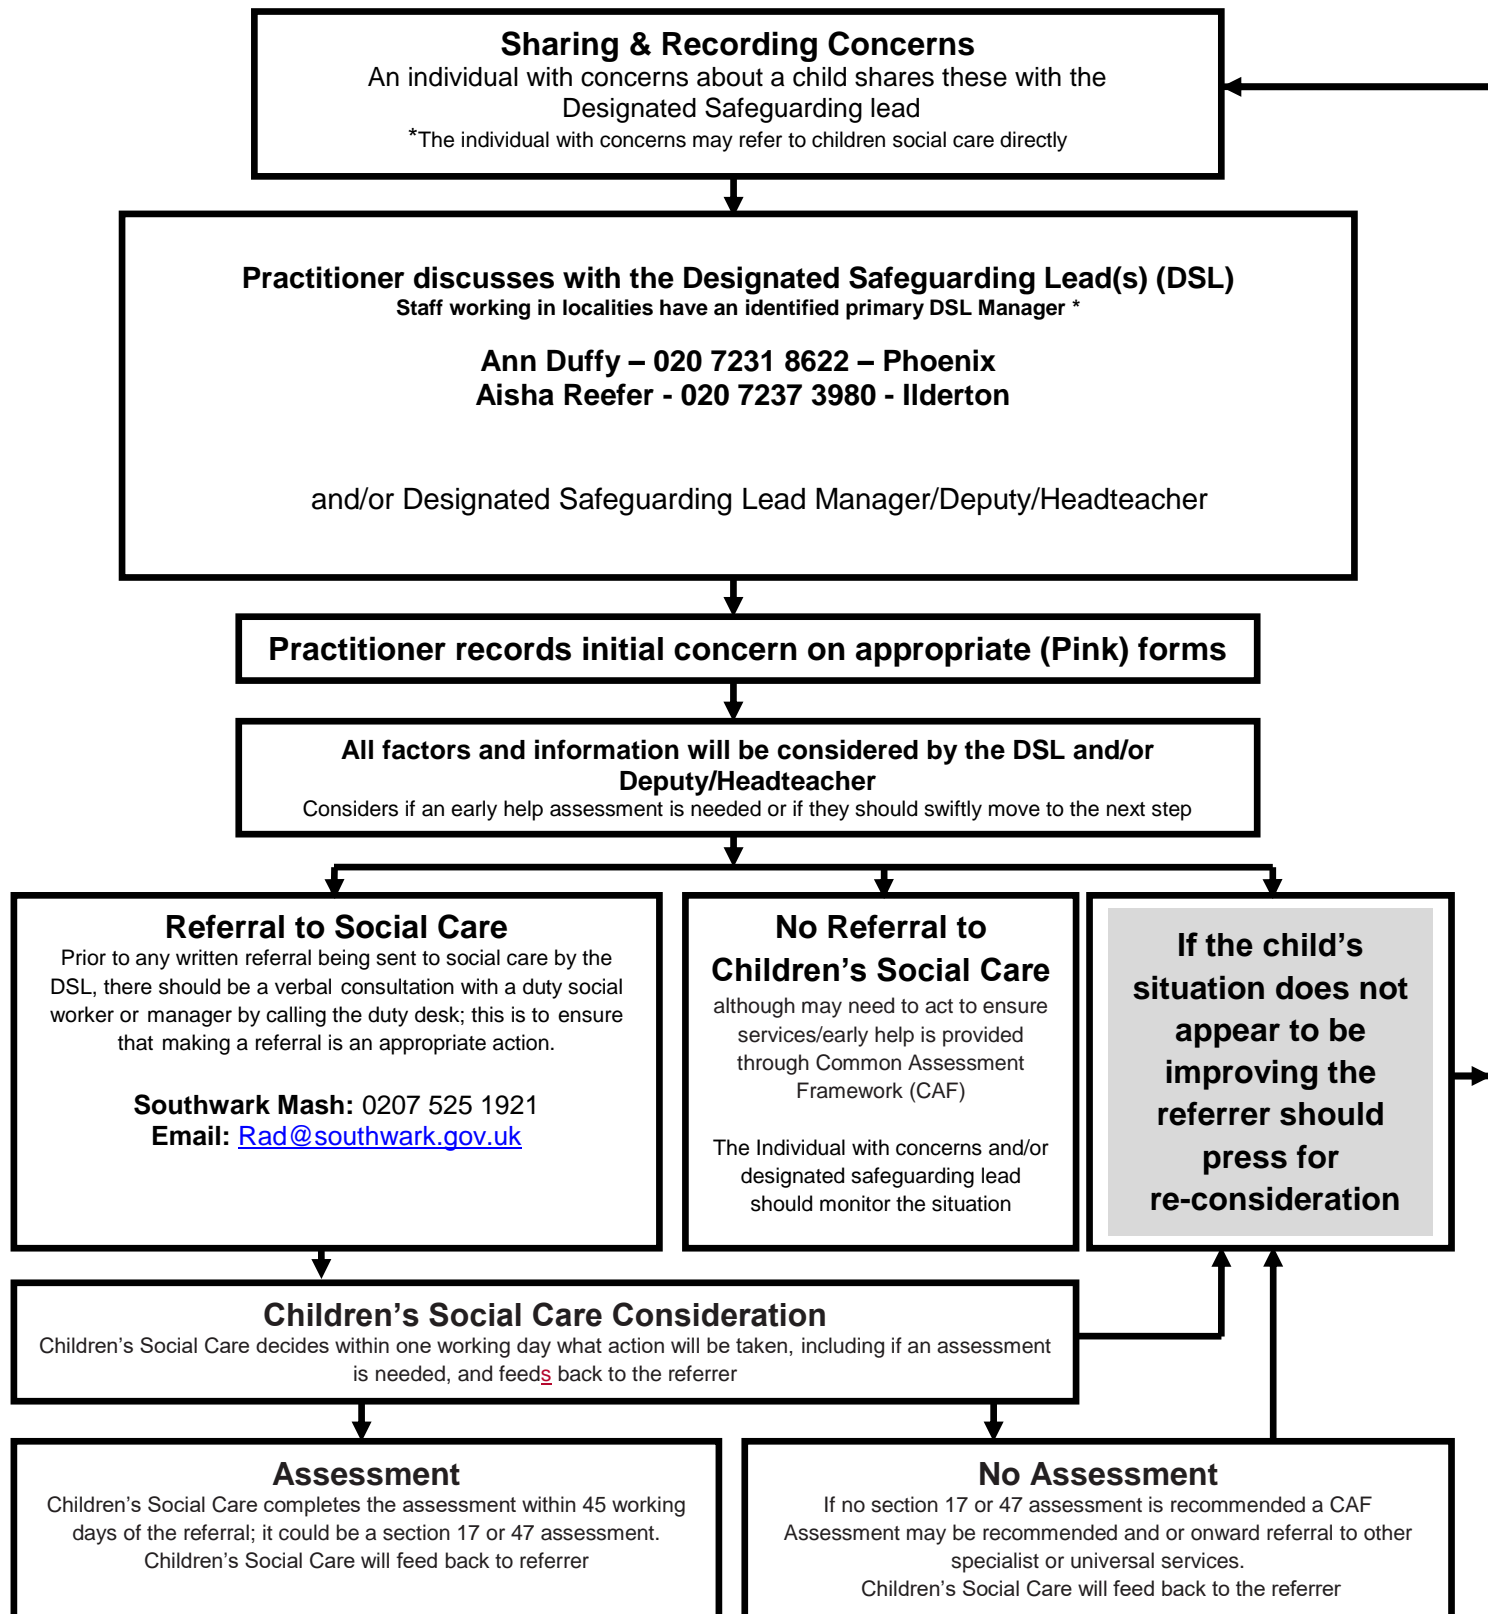

Southwark Children's Services

The Strategic Lead Officer for Safeguarding in Education Services	Nina Dohel	020 7525 3252
The LA's Deputy is: the Early Help Duty Manager	Duty Manager	020 7525 3893
The LA's Schools Safeguarding Coordinator	Apo ÇaĖirica	020 7525 2715
The Early Help Service (Education)	Duty Officer	020 7525 2714
Head of Social Work Improvement and Quality Assurance (LADO)	Eva Simcock	020 7525 0689

There is also a duty system and one of the CP Coordinators in Quality Assurance Unit is on duty each day to deal with DO issues when DO is unavailable. Duty telephone number for enquiries/referrals is 020 7525 3297

We also note the '[Safeguarding information for professionals and the community in Southwark](#)' on Southwark Council's website.

WHAT TO DO IF YOU HAVE CONCERNS ABOUT A CHILD

RESPONDING TO CHILD PROTECTION CONCERNS OR DISCLOSURES

1. Stay calm and don't show that you don't or can't believe the child
2. Listen carefully to what is being said without being judgemental
3. Do not promise secrecy but re-assure the child that they have done nothing wrong and that you will only talk to someone who can help to protect them from further harm
4. Let the child talk at their own pace and only ask "open" questions; how, who, what, where, when, why, etc., that will enable you to decide what to do next
5. Tell the child what you are going to do next
6. Make a note of what the child has said as soon as possible; using their own words
7. Speak to a member of the safeguarding team and complete the **CPFS Recording** form
8. Be discrete and say nothing that might compromise the safety of the child, their family, a colleague or the integrity of the school.
9. The Designated Person / Team are responsible for deciding upon the next steps and contacting parents / carers and the investigating agencies, as appropriate.
