

## Summer 1 Year 5 – Video Production

### Computing Concepts

Presentation

**Presentation**  
Expressing ideas

Systems

**Systems**  
Knowing how to create and use programmes

Digital world

**Digital World**  
Knowing how to use a range of technology

### Curriculum Objectives

- Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content
- Select, use, and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems, and content that accomplish given goals, including collecting, analysing, evaluating, and presenting data and information
- Use technology safely, respectfully, and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact

### Learning Overview

Learners will learn how to create short videos by working in pairs or groups. As they progress through this unit, they will be exposed to topic-based language and develop the skills of capturing, editing, and manipulating video. Learners are guided with step-by-step support to take their idea from conception to completion. At the conclusion of the unit, learners have the opportunity to reflect on and assess their progress in creating a video.

Lessons will cover:

- What is video?
- Filming techniques
- Using a storyboard
- Planning a video
- Importing and editing video
- Evaluation
