Summer 1 Year 6- Webpage Creations

Computing Concepts	Presentation Expressing ideas	Systems Knowing how to create and use programmes	Digital World Knowing how to use a range of technology

Curriculum Objectives

- Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content
- Select, use, and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems, and content that accomplish given goals, including collecting, analysing, evaluating, and presenting data and information.
- Use technology safely, respectfully, and responsibly; recognise acceptable/unacceptable behaviour.

Learning Overview

Learners will be introduced to creating websites for a chosen purpose. Learners identify what makes a good web page and use this information to design and evaluate their own website using Google Sites. Throughout the process, learners pay specific attention to copyright and fair use of media, the aesthetics of the site, and navigation paths.

Lessons will cover:
- What makes a good website?
- How would you layout your webpage?
- Copyright or Copy WRONG?
- How does it Look?
- Follow the breadcrumbs
- Think before you link!
